To whom it may concern,

Pamper Cleaning Services Ltd

Pamper Cleaning Services have provided general office cleaning services, and specialist hard floor treatments here at the Royal College of Veterinary Surgeons since 2007. Following expiry of their initial 4 year contract they were successful in securing their current second term, following a competitive tendering exercise.

Throughout their contract period they have provided services to the highest standards, and have responded to any requests or alterations to service in a most professional and efficient manner.

The management team has kept in regular contact with us, the client, and continues to provide informative advice when requested.

The College is very happy with the services provided, and I have no hesitation in recommending Pamper Cleaning Services Ltd to any prospective client.

Yours sincerely

Martyn Webster MBIFM

Facilities Manager
